

The Specialist's Creed

I am different and strive daily to maintain that edge
Average is failure therefore nothing is average about me
I compel the best of myself and others who encounter me

Professionalism is my watchword and exudes in everything I do
Ethics is in my fiber therefore I think, see, hear and speak with fidelity
There is no other classification that equals what I am called to do

The infinity of my vision cannot be seen
My sight spans the here and now and beyond the horizon
Even when I sleep I see beyond the slumber

There is no rest for my kind and I resist exhaustion with tenacity
My wick is always trimmed so that my lamp always burns bright
In my darkest hours I brighten those around me in order that they
perform

I am called and appointed to do what the human mind cannot conceive
There is no pause in my response in that terminal time
I am called to risk my life for the life of those I don't even know.
